## Overview:

The final days of Getting Out The Vote (GOTV) are here. In addition to our field efforts, having a digital presence can further help us get out the vote, recruit volunteers, and show Oklahoma Democrats are energized and ready to vote.

Below are sample posts volunteers and field can share by simply copy and pasting on your personal social media accounts.

You can also use your own photo of yourself out in the field knocking on doors or talking to voters. If your photo includes other people, please ask for their permission before posting. (No photo release waiver is needed if you're just posting from your personal accounts.)
