## **PREAMBLE**

The Oklahoma Democratic Party commits to influence governance and public investment in order to promote the common good and welfare of the citizens of the State of Oklahoma, and the United States of America. Further, it is our goal to restore and maintain integrity to all branches of government and to the political process. Guided by the principles outlined in the Constitution of the United States and the Oklahoma Constitution, it is our commitment to advocate for legislation that promotes social justice and opportunity for prosperity for all. To this end, we find it to be self-evident, that the Founding Fathers of this Great Nation intended to secure certain perimeters to the Rules and Laws of Governance, those being:

- To protect, preserve, and defend the standards, rights, and blessings established by the Constitution of the United States of America and the Oklahoma Constitution and ensure those blessings to all Americans and Oklahomans.
- That the various States remain united to protect the common welfare of all Americans.
- To remain true to the causes of Liberty and Justice for all Americans.
- To secure an opportunity for prosperity and freedom to conduct business without infringement from foreign or domestic corporate entities.
- To secure uninhibited participation in the electoral process by American Citizens.
- To secure legal recourse against the seizure of personal property by the appointed or elected authority without due process and fair compensation.
- To ensure equal protection under the law regardless of economic status or self-identity.
- To eliminate all laws that attempt to regulate free expression of self when the said expression does not infringe on a neighbor's rights.
- That the intent of all Laws, Rules, and Regulations must be to promote the common welfare of the people of this Great Nation and must be in the spirit of the intended purpose of the Constitution of the United States of America.
- That true patriotism stands committed to a progressive ongoing process of forming a more perfect Nation for all.

The Oklahoma Democratic Party stands united and committed today and tomorrow and all the days that follow to this worthy and honorable mission.

## **THE OKLAHOMA DEMOCRAT**

Oklahoma Democrats declare that we the people are our government and that we the people can create our government and change the government to do what is best for us. Democrats believe that we can use our government to make a better life for all of us through free public education for everyone, through affordable health care for all, through equal rights for all people through the protection of workers and their rights to bargain collectively, through the protection of the environment and a just tax system.

Oklahoma Democrats believe in equal opportunity for all people and that means public education for all preschool through college, it means health care for all, it means a fair tax system for all where wealth and non-work-related income are taxed just like work income is taxed. Equal opportunity means everyone should be treated equally under the law and the few should not get special privileges or tax breaks.

Oklahoma Democrats declare that America should be a nation of fairness and equality for everyone and that we ought to be a nation where everyone feels comfortable living, working, and raising a family. Democrats should promote fairness and equality for all Americans regardless of age, race, gender identity, religion, or sexual orientation.

Oklahoma Democrats declare that every worker should be treated with fairness and respect in our economy and that we ought to provide safety nets for the most vulnerable members of our society.

Oklahoma Democrats declare that every American is entitled to clean air, safe food, and clean healthy drinking water. Democrats have a long and strong record of protecting our environment and making ourselves accountable for our actions.

Oklahoma Democrats declare that every American who wants a job should have one, that government policies can grow our economy in a way that benefits everyone, and that the government can effectively fix harmful skews in the market.

Oklahoma Democrats declare that the rest of the world does matter and that we should work hard to promote a positive image of Americans abroad by reaching out to the rest of the world to show that we not only welcome our membership in the international community but that we can lead it responsibly.

## **NOTE FROM THE COMMITTEE CHAIR**

We are considered the party with a big tent. We listen, we confer, we deliberate, and hopefully, at the end, we are wiser. From the resolutions we received from the state, we can say, that we are largely on the same page. The committee was able to see patterns in the resolutions, which gave us a good picture of who we are as Oklahoma Democrats.

As Democrats, we believe in a clean environment, social justice, equality, workers' rights, education, responsive government, and responsible foreign policy. The Congressional Districts laid out their priorities in great detail. The committee sought to keep the concepts and ideas we were given, but we also tried to keep this document consumable. We added topic headings to make the document easily searchable, and we used concise language to communicate the important issues quickly.

I am grateful for the committee members that stepped up to harmonize the views of our five Congressional Districts. There was care and deliberation that went into making every merge and edit. It's an honor to help craft our resolutions document, and we did not take this job lightly.

Sincerely,  
Crystal LaGrone
